U.S. v. AVX, et al.
C.A. No. 83-3882-MC

Re: U.S. v. AVX, et al.
C.A. No. 83-3882-MC

Dear Mr. Cheeseman:

I am writing to let you know that the monthly NUS status report for activities in July, 1984 consists of the Executive Summary of the Draft Feasibility Study of Remedial Action Alternatives of the Acushnet River Estuary above Coggeshall Street Bridge. You and the other counsel for the defendants should have already received a copy of that Executive Summary directly from EPA Region I.

As we indicated at the conference on July 16, EPA welcomes comments upon the draft feasibility study from defendants, as well as from the public. A meeting between defendants and their experts with EPA representatives can be arranged, if defendants so desire. Any such a meeting should occur prior to the end of the written comment period on September 28, 1984. Please let me know if defendants are interested.

Very truly yours,

WILLIAM F. WELD
United States Attorney
